Subject: Invitation for Annual Conference of GCPD-2022

Dear colleagues,

The Society of Chinese Physicists in Germany (GCPD) is organizing its 31st annual conference which will be held in a hybrid format on 16th-17th September of this year. Presence meetings will be hosted in Berlin (Germany) and Changchun (China) in parallel. Online participation will be also an option. The purpose of the annual conference is to bring together researchers and practitioners with a background related to physics from Germany and China together to discuss the recent scientific and technological advancements in their fields, as well as to strengthen the scientific and technological exchanges and cooperation between China and Germany in physics and other related fields in the post-pandemic era. As the chair of the organization committee, I would like to invite you to deliver a keynote talk on this event.

The past two annual meetings were organized in the same format and turned out to be of great success (see http://gcpd.eu/2021_web/program.html for example). We will feel really privileged if you could attend the event in Berlin or Changchun.

Please let us know if you have time to join this event. We look forward to your response.

Yours faithfully,

In the name of committee of The Society of Chinese Physicists in Germany (GCPD e.V.)
Prof. Dr. DING, Fei
